We would like to thank some people from that forgotten era with which this release was made possible.

Damien T.G., War-M & Z-Skin.

Initially, many years ago, this release was conceived as a split between the LIHOLESIE and MOR.

Over the years it has become possible due to certain circumstances.

Mother Siberia. Father North.

KOLA KROSS

a. KOLA CROSS

Where the world is covered with the icy armour, Where fade and dim all colours
The frame of meridians has sketched
The Polar Circle and all realm peaks.

Here are severe life and customs,
Here they rely on their own powers
And give a merciless rebuff
To outlanders - alien strangers.

Where Night reigns in the sky,
Where the Kola Cross illumes the northern vaults
And circling glitters coldly,
The sign of nature — it's the part of a silent act.

White dead silence and wilderness here, Here vague mists spread ails, Strike foes ruthlessly and sharp With bony hands like crook.

Where millions of voiceless words And milliards of elusive glances Avidly hands grasp the gist And send to the first and last trip.

Here on the roads unknown,
In silver spangles of the night
(in scattered silver of the night)
I have found wisdom, powers
The flow of thoughts and peace forever.

b. RAVEN DARK

Wanderings and admiration of the nature's beauties, A hundred times, on the verge of collapse The painful cup of bane Was drained in the October still.

As a golden-dirty rustle, The stream of Raven dark has reached, The stream of consciousness and perish Crushing the exhausted stiff

On breaking the ties and dissolving, Forever growing into soil, The consciousness gets clouded and lost As ever, pitch-black wings stay before my eyes

Washed by heavy raining, Worn out by rough waters' flow, Scratches left by chants of wind. The Raven dark carries into gulf.

Visions, visions, scenes Through pitch-black wings So distinctly and truly As if I had gone mad.

And thoughts as razors
Are cutting me again
I'll come back to these veins,
I'll come back forever.

c. ICE FATHER

The Wheel of The Universe still spins Dropping rust in the deep of the sea Here only Ice Father is not asleep With his abiding cares

He is the Old and the New Slush in the month of May and mires He is the grey-haired Ice Father Warmth in a chilly slashing – Mor

In the rocky solid grindstones He forges the character of iron From the unknown rocks, Gnarled firs and melted snows

The nature's course is in his power All birds and beasts obey his word And human beings, reserved and cold Reads between the lines of nature

He is the Jav and Nav As the hoary world- a boulder In the lifeless and disdainable world He is the North – Ice Father

* Dedicated to the Father...

d. SUNLESS DAWN

The motionless crowns of trees Unhurriedly soar in the air The landscapes muffled in snows Unhurriedly draw their daggers

Choke and slay
Foreordain the twilight of the Earth
Mutilate and torture
Vanity eradicate

You tried to run away And fled, scarcely touching the ground Some steps and you fell Into the pale lethal sunless dawn

The branches lash your face Making it flame and ears ring The traps of stones under the snow Break your legs

A flash-like run is finished A dull ache blears your clear gaze Erratic pulse You catch again this eerie talk

Scraps of phrases From depths of ages in the dark About strangers and blood The last breath
